

# RESEARCH JOURNEY

## 1 VALUES & OBJECTIVES

Assessing and developing project values and objectives for patient-oriented research and engagement

## 2 DESIGN

Designing patient-oriented research and engagement activities using Equity, Diversity, and Inclusion principles

## 3 STUDY & PROJECT OPERATIONS

Conducting study and/or project operations in collaboration with those with lived experiences

## 4 EVALUATION & REPORTING

Evaluating and reporting on patient-oriented research and engagement

We recognize that this journey is not linear! It is important to be flexible and prepared to utilize problem-solving skills to address challenges you may encounter on this journey.
